Course Aims and Objectives (1 hr verifiable CPD)

- Review the main causes of endodontic failure
- Discuss the assessment of a patient who presents with a failed root treated tooth
- Discuss the factors that will determine whether root canal retreatment, endodontic surgery or extraction (and replacement) is the most suitable option for the patient
- Review the success rates for the different management options.

The presentation will commence at 18.30. We hope however that you will join Alix for some refreshments before. Should you have any cases that you wish to discuss with her, she will be very happy to go through these with you before or after the presentation.

The numbers of places at this event are limited, so please confirm your attendance early by emailing info@fairlandsdental.co.uk, or phone: 01483 233823.
